### Hard Skill

- BACKEND LANGUAGES: Python, javascript
- FRONTEND LANGUAGES: Html, Css, Javascript
- DATABASES: Mongo db(no SQL), sql
- VERSION CONTROL: Git Hub
- Command line utility

### Soft Skill

- Observation
- Decision making
- Communication
- Multi-tasking

### Education Background

- 2021-24: BACHELOR of COMPUTER SCIENCE  
Sriram College of arts and Science
- 2020-21: HSC: Computer Science  
Chellammal Vidyalaya Matric Hr sec School
- 2018-19: SSLC Chellammal Vidyalaya Matric  
Hr sec School

### About Me

I am a proficient full-stack developer with a primary focus on Python. With extensive experience in backend development, I specialize in crafting robust web applications using the Flask framework. From designing efficient database structures to creating powerful APIs, I excel in building scalable and secure solutions. My passion for clean code and problem-solving drives me to continuously enhance user experiences and optimize performance. With a strong foundation in both frontend and backend technologies, I am dedicated to delivering high-quality software solutions that exceed expectations.

### Professional Experience

#### FRONTEND EXPERIENCE

I have solid experience in frontend development, adept at crafting engaging user interfaces using HTML, CSS, and JavaScript. With a keen eye for design and usability, I strive to create intuitive and visually appealing web experiences that delight users.

#### BACKEND EXPERIENCE

In backend development, I specialize in building robust server-side solutions using Python and the Flask framework. From designing efficient database architectures to creating powerful APIs, I focus on delivering secure and scalable web applications that meet client needs. With a keen attention to detail and a passion for problem-solving, I ensure that every aspect of the backend infrastructure is optimized for performance and reliability. I thrive in collaborative environments where I can contribute my expertise to create innovative solutions that drive business success.

### Achievements

Successfully implemented user registration, CRUD operations, login authentication, and todo functionalities, seamlessly integrating frontend UI with backend logic to process and store user details securely in databases.
